

Chess - Club

1924

U n t e r l i e d e r b a c h

Summary of the life of the club.

The foundation had been at 9th 5.1924 in Unterliederbach. The average sum of members was 30-40 persons, besides there was a great number of peopils-group. (beginners)

The club had a consides able force of playing and had very hig resul when matching. This was appreciated from all parts.

The Chess-club 1924 was joinde the Deutschen Schachbund however it always remainde neutral, During the was playing was stopped, as a great deal of members had, joined the Wehrmacht but the club was not disso.

As the association was always neutral in political things, it ~~was~~ was not possible for the Nazis to establisch. A proof may he, that in all the jears only 3 members joined the Nazi-Party. Demonstrably, they had only become members by force of the cirumstauces, and never they had worhed for the Nazis.

The club was forced by the Deutschen Schachbund which had joinde, to eleet a member of the Party to be first chairmann, but not he is remored from this position. From all arrangements which had politica significaton, the club stood absolutly aray.

By the was the club has been inyused in material, but the members wi dry with all their forces to make this well again.

Partly, the club ~~has~~ has kept cash, chess-watches, chess-boards, chess-m and books, thus the playing can start. Not any thing was taken from another club. The club itself was holder of matches and arrangments. Just in this time, the number of members is 22, 3 of them have been in the Party, as I have said above. Since they only have been trimmer we haven't discharged them.

All the club, the totality of it will ansver for a completly politic neutrality and attak all Nazi-machination till the and, and it will do so with all things, the club has at dispoal.

manging coumitee.
